Could you please keep my friend Fred in your prayers. We've been praying for him since 2021. Now he's going through a left foot problem and if the doctors can't get it to improve they will amputate it. My brother James is having surgery on his shoulder tomorrow and he's not a believer. In Jesus Amen

I hate to bore you with all my ailments, but I sure could use prayer from you for my plantar , fasciitis and arthritis in my feet. From being a natural athlete in my youth to hardly being able to walk is quite discouraging. I feel guilty for asking for a prayer when there's so much going on around in the world. I do count my blessings that I can walk even with great pain Thank you so much appreciate you all. God bless you and your ministry.

Prayers for me as I expand my online business. I will be mailing samples of some of my handmade products to a local nova scotia gift shop in hopes of being a local seller. I also plan to go to a local farmer's market in June and in the Fall to sell as well. I hit over 2,000 sales in my Etsy shop recently. All in Gods time and in His will. Tyvm.
