I know there's lots of issues around the world, but hopes we can pray for the unfortunate issues around my hubby's parents' divorce & the split up of the business we are in with them. We are concerned we are not going to have a home to live in, when all is said & done. I know, that I know, that I know, God is faithful to be our provider. I need help to rest in this Truth; & as well, my husband & our daughters most definitely need Peace, bc they are facing huge anxiety with this. The business is a family farm & we have many animals that depend on us. Thank you all so much for your prayers.
