A very close friend of ours who has been fighting cancer for several years, has just received news that the treatment is no longer working and she is to be admitted to a hospice in Burlington. This is often the final stage. Please pray.

PRAISE REPORT: I have been informed that I am still eligible to go to a conference with my PD funds that is part of my contract at the university. So, I'm looking at combining a conference with a pilgrimage, as I can tack on 2 days on either end of any conference I attend.

Prayer Requests:

1. That my estranged daughter will follow the Lord;
2. That my non-believing friends, especially my friend Scott who is addicted to soft drugs, will be given the gift of faith through the grace of the Holy Spirit;

3. That my country of Canada will repent of its culture of death through MAiD, abortion and gender lies;

4. That my allergies will alleviate as the winds in Kamloops, BC have been quite strong and been blowing around dust and pollen. I can't and don't like taking antihistamines.

PRAISE REPORT: (Soft humour, but this was a great accomplishment) I have successfully pickled a batch of eggs with a super-spicy-hot brine of sriracha, cayenne, Thai and jalapeño chilies and made Dragon's Breath Pickled Eggs! This was a challenge. I am a foodie... lol
